9th National Conference on

**GLOBAL
INFORMATION
AND
BUSINESS
STRATEGIES**

7-8 December, 2018 (Friday and Saturday)

INTRODUCTION

The present-day business environment is in a state of flux, besieged by a host of issues and challenges. In a rarity of a kind, the fragmentation and integration of processes exists concurrently. Inadvertently, the myriad of problems in management find a linkage with Marketing, Finance, Economics, Human Resource Management, International Business, Law and the likes.

In such an uncertain landscape, the need of the hour is to formulate strategies for the functional domains (read Marketing, Finance, HR etc.) alongside having a holistic approach for the overall success of the business enterprises. The challenge, thus warrants innovation in policies, procedures and practices, perpetually.

The beauty of the uncertain business landscape is that whilst individual growth is a priority, the integration of economies is the demand; the individual growth and integration of economies representing the ends of the spectrum. In context of the aforesaid, this International Conference is designed to answer a plethora of issues and challenges faced by the enterprises in diversified fields of management and law and for developing the solutions on a sustainable basis.

The main theme of the International Conference is “Global Information and Business Strategies”. The conference aims at bringing together researchers and practitioners by disseminating knowledge about the broad topics on the theme and through the facilitation of the discussion on the same.

We call upon academic scholars and practitioners alike to participate in the conference and invite research papers, work in progress, case studies and research articles. The conference provides a perfect platform for academic scholars to share their recent quality work with not only the experts in the field but also practitioners. To that end, both empirical and conceptual or theoretical works are welcomed.

OBJECTIVES

- To provide a meaningful and vibrant platform to academicians, students and corporate executives for sharing ideas, perspectives, research and experiences.
- To discuss, debate and deliberate the new dimensions of innovation in the present contemporary business scenario.
- To present the research findings on Innovation in Marketing, Finance & Economics, Human Resource Management, International Business, General Management and Law to a larger audience consisting of academicians, students and corporate executives.

RESEARCH PAPER SUBMISSION

Original research papers related to the conference themes and sub themes are invited from academicians, students and corporate executives for presentation at the conference and publication in conference proceedings. The guidelines for writing papers are given separately. Last Date of Paper Submission is 10th November, 2018.
