

## WORKSHOP ON GROWTH & DEVELOPMENT OF ENVIRONMENTAL SYSTEM ON 12<sup>TH</sup> OCTOBER, 2018

Gitarattan International Business School organized a Personality Development Workshop (PDW) for its BBA, third semester students on “Growth & Development for Environmental System” on 12<sup>th</sup> October, 2018, to generate awareness about environmental issues and give students an insight into growth and development of environmental system.

Ms. Garima Mishra, Director of Liferenew Ventures Pvt. Ltd., during her session focused on different environmental issues, where she mentioned about water, air & soil pollution and factors contributing in different kinds of pollution. She elaborated on Green house effect, ozone layer depletion and discussed the different ways to protect our environment and mechanism to sustain the natural resources. She also explained about 3R's (reduce, reuse and recycle), waste minimization and solid waste management.

The speaker also emphasized on Environmental management system (EMS) in which she explained EMS is necessary in the management of an organization's environmental programs in a comprehensive, systematic, planned and documented manner. EMS includes the organizational structure, planning and resources for developing, implementing and maintaining policies for environmental protection. After that she explained about different statutory laws for environmental protection in India. She motivated students how individually they can participate in environmental protection by changing their day to day habits. She explained about ISO14001 standards for different Industries and how different companies can work for environmental protection. Lastly, Ms. Garima Misra shared her knowledge about recent trends in the area of

growth and development in environmental management system, where she focused on Planning for resource management for sustainability and Environmental Systems as drivers of economic growth.
