

# GIBS – SUMMER INTERNSHIP FAIR

11<sup>th</sup> March 2019

Summer Training is an integral part of Management programmes. Recognizing the importance of internship in the professional development of students, Gitarattan International Business School (giBS) organised “Summer Internship Fair” on 11<sup>th</sup> April, 2019 at the college premises with a view to provide platform to the students who are ready for their summer internships. Students of BBA Semester 4 and MBA Semester 2 participated in the event.

Internship Fair connects students with companies. The same was witnessed in GIBS campus where recruiters of many reputed organizations from different sectors interviewed and selected students as their summer interns, thus providing them opportunities in various domains. Some of the companies that visited our campus are ShareKhan, Max Life Insurance, IDBI Federal, Flexability (ABC Consultants), Alpino, Indian Smart Hub, etc. Companies such as Uneako and Vyomini, which are manufacturing eco friendly products for daily needs, also participated in the fair. Around 350 students expressed their interest to work as summer interns in these companies. The company representatives briefed students about the internship role, skills required, and stipend offered, after which they started the selection process.

Summer Internship fairs are a bridge between the students and companies, where recruiters get access to large pool of candidates and the students get chance to explore a range of summer internships from wide variety of companies coming in the fair.
