

**Webinar on**  
**‘QUICK TRICKS OF MATHEMATICS’**  
**23<sup>RD</sup> JANUARY, 2021**

Internal Quality Assurance Cell of Gitarattan International Business School organized Webinar on “**Quick Tricks of Mathematics**” on 23<sup>rd</sup> January, 2021 for BBA First Semester Students. The Session was carried by **Mr. Deepak Matrani**, who is the founder of renowned Ed-tech firm [www.deepakmatrani.com](http://www.deepakmatrani.com).

This webinar was designed as mathematics and calculations are inherent part of all the disciplines including Management, Business, Science and all allied studies. The essence in solving complex arithmetic problems lies in the knowledge of basic mathematical tricks, and the subject is of high demand from the students. All together 215 students participated in the webinar.

Mr Matrani explained very well all the steps involved in the process and different tricks so that participants may inculcate the habit of using these mathematical quick-tricks. The students participated with great enthusiasm, exercised through hands-on practice and resolved their queries from the trainer.

The webinar was truly insightful for the students and they requested for similar webinars in future.
