

REPORT ONE- MDP ON HR ANALYTICS (31st July 2020 – 3rd August 2020)

GitarattanInternational Business School organized “**Four Days E -Management Development Programme in HR Analytics**” from **31stJul -3rd Aug 2020**.

The purpose of the MDP was to provide the insights on HR Analytics using Microsoft Excel. This MDP has attracted good number of external participants. Dr. Felton Lean, Prof Anup Ghosh, and Ms Ritu Singh were the resource person of the programme. The sessions were based on real life problems & case studies related to HR. They delivered the session with full of hands on practice on the various tools & techniques that can be used to make data driven decision.

The highlight of the programme was different techniques like Pivot table, V- Look up, Fuzzy Look up, Expense analysis, Salary certificate generation, Mail merge etc taken up by the Resource person. This MDP was very fruitful to all the participants as they were fully involved in the session. This was noticeable because participants were doing the hands on simultaneously along with the resource Person and clearing their doubts side by side. E-MDP ended on 3rd Aug, 2020 with vote of thanks by the coordinator of the programme and feedback by the participants. Overall session was very enriched and insightful
