

PERSONALITY DEVELOPMENT WORKSHOP

GENDER SENSITIVITY IN PROFESSIONAL LIFE

6th JANUARY 2022

Center for Legal Studies, Gitarattan International Business School organized E-PD Workshop on 6th January, 2022 for the students of BA LLB & BBA LLB (1st Semester). The theme of the workshop was “Gender Sensitivity in Professional Life”. The Guest Speaker for the session was Dr. Sangita Laha, Associate Professor and Dean of Faculty, National University of Study and Research in Law, Ranchi.

Dr. Laha started the session by explaining the difference between sex and gender. It's no secret that gender plays an important role in society and in the workplace. Women have been fighting for their rights and for their place in the world for years. Consequently, gender sensitivity has been an on-going dialogue inside the workplace. She explained that though the participation of women at workplace has increased with time but not many women are at the leadership level in corporate field and other professions. Even participation of women in politics is also very limited. Women who have achieved high levels of success professionally have their stories of being discriminated and bullied on the basis of their gender. Dr. Laha also explained the difference between intention and behavior and that gender bias is sometimes unintentional. Ma'am ended the session by telling students about the steps taken by the Government of India for the protection of women and for her empowerment. The session was highly interactive; students asked many questions and participated in the discussions.
