

PDW ON UNIVERSAL HUMAN VALUES

2nd JUNE, 2022

Gitarattan International Business School organized a Personality Development Workshop to promote universal human values on 2 June, 2022 for the second semester BBA students. The title of the workshop was “Universal Human values”. The objective of the workshop was to help students comprehend the relevance of universal human values and their importance in all the spheres of life. The resource person for the workshop was Dr. MOHD. Mustafa Professor, Department of Commerce & Business Studies, Jamia Millia Islamia, Central University, Delhi.

Dr. Mustafa began the workshop by defining human values. He opined that universal human values have become necessary in post- modern fragmented societies. Human values help in developing a holistic world vision through a guided process of self-discovery. Once we understand the universal human values the interconnectedness, the interdependence and the harmony all around us with other human beings as well as with the rest of the nature becomes tangible. In a global world human values resonate with the ethos of global solidarity to promote human dignity. Dr. Mustafa quoted interesting examples from serials and movies.

The illuminating workshop inspired students to practice empathy and inculcate universal human values. The PDW concluded with a vote of gratitude by Dr. H. Sharma, Director, GIBS.
