

FREE HEALTH CHECK-UP CAMP

26TH AUGUST 2025 (TUESDAY)

The NSS Unit of Gitarattan International Business School (GIBS) successfully organized a Free Health Check-Up Camp on 26th August 2025 in collaboration with **Fortis Hospital, Shalimar Bagh**. The initiative aimed to promote preventive healthcare, provide early detection of health issues, and spread awareness among the local community.

The camp offered a wide range of health services, including General Physician Consultation, Orthopaedic Screening, Eye Check-up, Dental Examination, Heart Health Consultation

(Cardiology), Cancer Awareness and Preliminary Screening, Blood Pressure and Sugar Testing. The event witnessed enthusiastic participation from students, faculty, staff, and local residents.

A team of professional doctors and healthcare specialists from Fortis Hospital, along with trained student volunteers of NSS, ensured smooth execution of the camp. From registration to consultation, every participant was guided and assisted, creating an inclusive and supportive environment.

The event served as a significant step in bridging the gap between healthcare services and communities that often lack easy access to medical care. It not only facilitated early detection of health issues but also instilled awareness about the importance of regular health check-ups and preventive care practices.
